Mission Statement

We, who by our own actions, and by our heritage, know that liberty has not, is not, nor ever will be free, do in association with our friends and comrades, who believe as we do, pledge that we will meet at the call of our Commander no less than ten times a year:

- * To hear of the war experiences of our members and invited guests
- * To encourage and demonstrate pride in our country and its armed forces
- * To pass on to posterity our knowledge of World War II, and of the price - human and material - that was paid by our nation for the preservation of liberty in the United States and the world

Speaker for JANUARY 20th, 2011–William (Bill) Burton (To Be Introduced By Deputy Commander Goulding)

Our first speaker for 2011 will be Bill Burton, a WW II Navy veteran from Lilburn, GA. Bill was born in Columbus, GA. and enlisted in the U.S. Navy when he was 17 after pestering his mother to sign his enlistment papers.

He was assigned to the civilian ships manned by the merchant marines ferrying supplies to England. These sailors were known as the *U.S.N. Armed Guard*, their main purpose being to maintain the guns and ammunition furnished by the U.S. Navy for the protection of the ship and to protect the ship, ship’s crew and cargo from the enemy. The *U.S.N. Armed Guard* served on more than 6236 ships during WW II. Other *U.S.N. Armed Guard* included officers in charge of the crew, radiomen and signalmen.

In February 1943 Bill was assigned to an ammunition convoy headed to *Murmansk* in the Soviet Union. These were extremely dangerous runs, the merchant ships operated in arctic conditions, often coming under attack from enemy surface raiders, German Submarines and aircraft. After a violent storm separated Burton’s ship and two others from the convoy, his was the only one to make it to sanctuary in Iceland.

Bill ended-up shortly thereafter in England, practicing for the D-Day landings and would make a total of nine runs to the beaches at Normandy carrying infantry from England, five runs to *Omaha Beach* and four to *Utah*. Later; during the *Antwerp Bomb Blitz of 1944*, he would survive over 500 German V-2 Rocket attacks and then be sent to the Philippines and take part in the *Battle of Leyte Gulf*. Lastly, Bill was sent to Norfolk to pack guns for storage and while there the war ended. He served a total of 3 ½ years in the service, 32 months of sea duty aboard 5 different ships and was discharged in February, 1946. He has been awarded the *Russian Great Patriotic Medal* from President Boris Yeltsin for his participation in the *Murmansk Runs’* in WW II, the *French National Order of the Legion of Honor Medal* for his participation on D-Day, the *Navy Citation Theater Award* for participating in 3 theaters of operations and a special award for establishing the *Georgia Chapter of USN Armed Guards*. During WW II, the *U.S.N. Armed Guard* lost over 6000 men killed in action serving aboard 216 liberty ships which were sunk.

Bill has a second story to tell as well. He has been diagnosed with a irreversible lung disease called *Asbestosis* and is working to get legislation enacted so former sailors can get service-connected disability for *Asbestos Poisoning*. He is the author of the book *Asbestos..The Silent Killer Of Navy Veterans*.

Please welcome William (Bill) Burton as our JANUARY 20th, 2011 speaker. (245th Meeting)

Review of DECEMBER 16th, 2010 Speaker –Richard McMurray (Introduced by Deputy Commander Goulding)

Richard McMurray’s presentation to the Round Table on December 16th was about “*The Great American Battleship: It’s History And It’s Role In World War II.*” Richard is a American Civil War scholar, having a keen interest in Battleships; He earned a degree in history from *Virginia Military Institute (VMI)* as well as a M.A. and Ph.D. from Emory University in history.

Richard credits the Vikings with perhaps creating their own version of the Battleship by hanging their steal shields over the sides to protect from enemy projectiles. U.S. Navy Battleship construction began with the CONTINUED ON BACK

keel laying of the *Maine* in 1888. It ended with the incomplete *Kentucky* (BB-66) in 1947. The U.S. Navy continued to build a fleet of Battleships during the late 1880's; these ships were able to take action in the Spanish-American War. A larger fleet of Battleships were conceived during the 1930's, the first of these going into service in 1942, the *North Carolina*, followed by the the *South Dakota*, and the *Iowa Class* ships. The Navy then started planning on building an even larger class of Battleships to compete with the new Japanese *Yamato Class*, which had 18.1" main guns, these would have been designated the *Montana Class* ships, but this project never got off the planning stages.

During WW II, the Battleships took on several new roles; as escort ships to convoys; providing support and shore bombardment for amphibious invasions, and as protection for Aircraft Carriers.

Thank you Richard for your enlightening presentation and for a job well done.

I am pleased to announce that we have five (5) new members who have joined us since the December 16th, 2010 meeting:

WW II Veteran – Marvin Nash Worthy – Marvin served in the U.S. Army Corps of Engineers, 271 Combat Engineer Battalion, 71st Infantry Division as a Water Supply Technician. He served in France, Luxemburg, Germany, Austria, and participated in the *Battle of the Rhineland*, serving under General George S. Patton, Jr.

WW II Veteran - Morton (Mort) Waitzman – Mort served in the 29th Infantry Division, 115th Regiment, HQ.CO. in the ETO. He served in a combat communications regiment on *D-Day* and across Europe in Bremerhaven, Germany and was directly involved in liberating the slave labor and concentration camps.
