Mission Statement

We, who by our own actions, and by our heritage, know that liberty has not, is not, nor ever will be free, do in association with our friends and comrades, who believe as we do, pledge that we will meet at the call of our Commander no less than ten times a year:

- * To hear of the war experiences of our members and invited guests
- * To encourage and demonstrate pride in our country and its armed forces
- * To pass on to posterity our knowledge of World War II, and of the price - human and material - that was paid by our nation for the preservation of liberty in the United States and the world

Speaker for JUNE 16th, 2011– Visvaldis (Vis)Kimenis (To Be Introduced By Deputy Commander Goulding)

Many of our members know Vis Kimenis as a former speaker for us in November 1990 (*On The Receiving End*) and March 1992 (*Know You're Enemy- Germany.*) and as a former Commander of the Round Table (1994 – 1995.)

Vis was born in Latvia, U.S.S.R. and as a six year old boy witnessed the invasion of his country by the Germans, to include tank battles and other combat aspects of the fighting on the Russian front. Before the war was over, he and his family escaped into Germany where he lived through bombings by the British and Americans, to include the devastation of an entire city. He was on the ‘Receiving End’ – not once but twice.

After the war he lived for several years in camps for displaced persons. When he finally reached the United States, he completed his education at Norwich Military College and entered the U.S. Army. After serving for 25 years, including several overseas assignments, he retired as a Lieutenant Colonel.

On June 16th, Vis will tell us about the *Latvian Legion*, a German conscripted division from occupied Latvia. The Germans formed this division after the fall of Stalingrad in January 1943 where they lost the German 6th Army commanded by Field Marshall von Paulus with the surrender of 107,800 troops. The massive loss of troops empowered Hitler to direct that ‘volunteer’ divisions from occupied territories be conscripted.

In contravention with the Hague and Geneva Conventions, Hitler ordered his head of the Gestapo (State Secret Police) Reichsfuhrer Heinrich Luitpold Himmler, to establish the *Latvian Legion* in February 1943. Mainly young ethnic Latvians were drafted to serve in the 15th and 19th Waffen Grenadier SS Divisions and participated in battles in Russia, Latvia and Germany.

Soldiers serving in the Legion did not necessarily share Nazi ideology and were not completely loyal to Germany. A report by the commander of the 15th Division, Oberführer Adolf Ax on 27 January 1945 says: "*They are first and foremost Latvians. They want a sustainable Latvian nation state. Forced to choose between Germany and Russia, they have chosen Germany, because they seek co-operation with western civilization. The rule of the Germans seems to them to be the lesser of two evils.*" For some, this choice was the result of the Soviet occupation between 1940 and 1941, called "The Terrible Year" (Latvian: *baigais gads*) during which tens of thousands of Latvian families were executed or deported to Siberia. In this one year the dislike between Latvians - who were German serfs for 8 centuries - and Germans disappeared almost completely.

After the war, those who surrendered to the Russians were sent to forced labor camps in Siberia; those who surrendered to the Americans joined the para-military Labor Service Guard, Transportation and Construction units in the the American Zone of Occupation in Germany. Please welcome Vis Kimenis as our JUNE 16th, 2011 speaker. (250th Meeting)

Review of MAY 19th , 2011 Speaker –Dr. Virginia D. Young (Introduced by Dottie Stephenson)

Dr. Virginia (Suzy) Young has been active in setting and meeting the vision and goals for the future soldier. She is the Director, U.S. Army Advanced Science and Technology Directorate, Aviation

and Missile Research, Development and Engineering Center, Redstone Arsenal, Alabama.

Suzy is a civilian employed by the Army and has worked in her field for 34 years, 6 years in private industry so she has seen both the government and civilian sides of operations in the fields of science and technology. Dr. Young is one of those 'behind-the-scenes' professionals that provides the military with insight into the rapid pace of technology that has enabled the Department of Defense to capitalize on advancements in communications, sensors, networking, weaponry and computer processing to provide new capabilities to the warfighter that offer amazing advantages in the fight, often unrealized to the public.

At present Suzy oversees the operational functions of the Science and Technology Engineering Center that employs about 3000 civilians at Redstone Arsenal; she coordinates with about 4000 contract personnel that are also spread out throughout the country working on Robotics, Helicopter Technology, Applied Infantry Technology and other systems.

The teams at Redstone work on everything from battlefield robotics and current drone technology to future Star-Trek type 'Force-field' technology and Micro-Air vehicles that can fit into a soldier's backpack like the *Hand Hummingbird* and can be launched by hand to provide real-time intell and video transmitted to a small hand-held controller.

Dr. Young's Science and Technology Directorate cooperates with other centers of the military as well, one of the chief aims is to reduce casualties and deaths of our warriors. They have been very successful at this, especially using drones, vehicles and other un-manned mobile devices (land, sea and air.) It's certain Dr. Young was aware of the new *Stealth Helicopter* Technology used by the Navy Seals on May 2nd, 2011 to take out Osama Bin Laden but could not discuss this top-secret aircraft.

Thank you Dr. Young for your dedication in your field, for bringing the history of Redstone Arsenal to the Round Table, for helping to *Preserve History* and for a job well done.

I am pleased to announce that we have one (1) new member who has joined us since the May 19th, 2011 meeting:
WWII Veteran Leonard A. Meyer – Leonard served in the U.S. Air Force, 378th Troop Carrier Squadron in the South Pacific. His training was in Airstrip Control Tower Ops, and he was part of a crew operating a C47.
Please welcome Leonard as our newest member of the Round Table at our June 16th, 2011 meeting.
